

Show off your #GreenHeart for Earth Day 2020

22nd April marks 50 years of [Earth Day](#). Many people across the UK will be hanging green hearts in their windows next to the beautiful key worker rainbows to show that we want a cleaner, greener future. Why not get creative and join the campaign?

How to make a stained glass heart

30 minute+ activity, suitable for anyone able to safely wield scissors

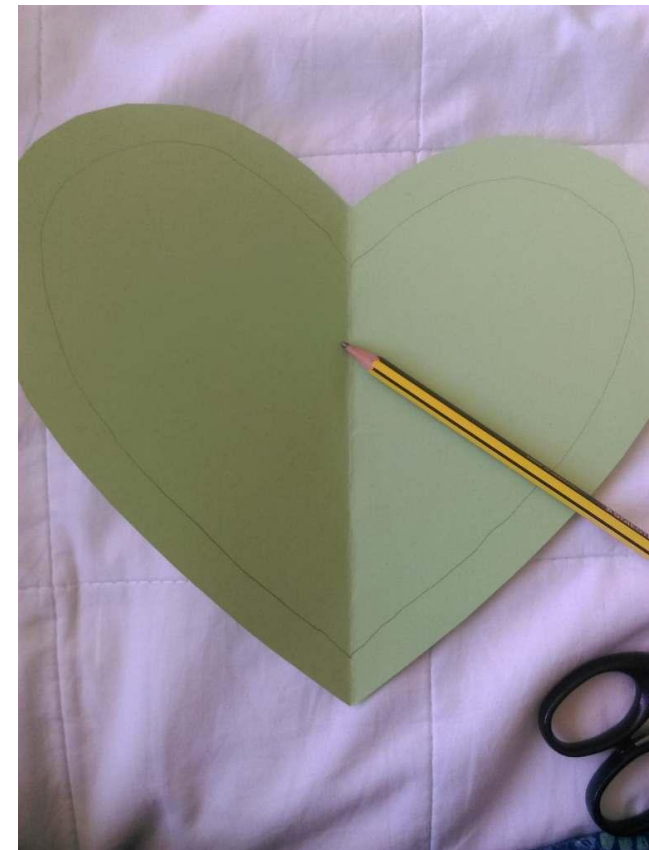

You will need:

- Card
- Pencil
- Green tissue or crepe paper in several shades
- Scissors or craft knife
- Glue stick or other craft glue

Step 1

Fold your card in half and cut a half-heart shape.

Step 2

Open out your heart shape and draw a smaller heart a few centimetres inside it.

Step 3

Create your design. Draw sets of parallel lines at random inside the heart.

Top Tip: use a pencil so that you can rub out and make changes as you go, or use our template (see below).

Step 4

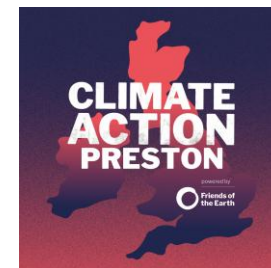

Use sharp scissors or a craft knife to cut out your design.

Step 5

Cut sections of tissue paper to fit inside each of the holes you have created and glue them down.

Turn your heart over and admire your handiwork!

Let the light shine through your finished heart.

Don't forget to add the [#HopefulHeart](#) and [#EarthDay2020](#) hashtags and upload a photo of your artwork to twitter. Tag us in [@PrestonAction](#).
